

IFCS-2011 conference in conjunction with GfKI-DAGM meeting

August 30 -- September 2, 2011

Frankfurt, Germany

The IFCS Council decided that the IFCS-2011 conference will be organized in conjunction with the 2011 annual meeting of GfKI (jointly organized with the German Association for Pattern Recognition DAGM) from August 30 to September 2, 2011 in Frankfurt (Germany).

In particular, a one-day IFCS Symposium will be organized on 30th August, 2011 (i.e., the day before the actual GfKI-DAGM meeting), with IFCS keynote speakers, IFCS plenary and parallel sessions, and the IFCS Presidential address.

Participants of the IFCS symposium will also attend the actual GfKI/DAGM conference from 31st August until 2nd September, 2011 for which IFCS will act as the international partner of GfKI.

Participants of the IFCS symposium may submit papers for the GfKI/DAGM conference, for which IFCS can also nominate invited speakers.

More information on the IFCS-2011 conference will be included in the forthcoming IFCS Newsletter.
